

WHAT'S HAPPENING

The Vancouver Park Board is renewing Collingwood Park!

This project will include improvements to old features and establishing new features for park users. Features that will be replaced or renovated include the washrooms, the wading pool, and the playground equipment and play surface.

We are asking residents and park users to let us know their priorities for the renewal to help shape the renewed park.

PROJECT
TIMELINE

WHAT'S HERE

In this first round of community engagement, we are looking to understand your vision for the renewed park. This board highlights what the existing conditions are in the park.

Help us understand what you would like to see in a renewed Collingwood Park. Your input will be used to help shape priorities for the park and develop a concept design.

EXISTING FEATURES

① Baseball Diamond

② Wading Pool

To be replaced with spray
or water feature

③ Playground

④ Washroom/Fieldhouse

To be renovated through
the *Washroom Strategy*

⑤ Basketball Court

⑥ Grass Field

This map highlights park spaces and amenities that are near Collingwood Park that may also be used by park users. This helps us to understand what is important and help us prioritize the amenities planned for the renewal of Collingwood Park.

NEARBY AMENITIES

5 min. walk radius (400m)

GASTON PARK

- Basketball
- Soccer Field
- Softball
- Playground
- Small Urban Plaza

10 min. walk radius (800m)

MELBOURNE PARK

- Basketball
- Tennis Courts
- Open Lawn

ABERDEEN PARK

- Playground
- Plaza Area
- Open Lawn
- Picnic Tables
- Walking Trails

LEGEND

- Kingsway (Vehicular Route)
- BC Parkway (Pedestrian/Cycling Route)
- Nearby Parks
- Nearby Schools

5 min. walk radius = 400m
 10 min. walk radius = 800m
 20 min. walk radius = 1600m

WHAT'S IMPORTANT

Collingwood Park is a place for recreation, relaxing, play and for the community to gather while surrounded by greenspace. As a part of this renewal, we are working to develop a design that makes the park more accessible, improves existing features, benefits the environment and brings the community's vision to life.

WHEN THINKING ABOUT THE FUTURE OF THE PARK, WHAT ARE THE MOST IMPORTANT CONSIDERATIONS THAT SHOULD SHAPE THE NEW DESIGN?

Should contribute to an active and healthy neighbourhood with spaces for sports, fitness, and recreation

Should make park elements more accessible, providing a new pathway or loop through the park that could be used for walking, jogging, rolling

Should create an inviting and playful space for children of all ages and abilities with a range of options for play

Should create a welcoming space with opportunities for people to gather, hold community events, socialize and connect with each other

Should contribute to a healthy environment with a focus on increasing the tree canopy and adding natural areas that support birds, pollinators and wildlife

Should improve drainage and water quality that flows from the park with green infrastructure, such as rain gardens, to capture and clean rainwater

Should contribute to local food production
