COLLINGWOOD PARK RENEWAL

WELCOME 1

WHAT'S HAPPENING

The Vancouver Park Board is renewing Collingwood Park!

This project will include improvements to old features and will establish new ones for park users. Features being replaced or renovated include the washrooms, the wading pool, and the playground equipment and play surface.

We are asking residents and park users to provide feedback on the proposed concept design developed from the public consultation in May 2022.

ROUND 1 ENGAGEMENT. MAY 20th - JUNE 9th 2022.

DESIGN PRINCIPLES

The following design principles were derived from round 1 engagement:

- Create an inviting and playful space for children of all ages and abilities with a range of options for play
- Contribute to an active and healthy neighbourhood with spaces for sports, fitness, and recreation
- Create a welcoming space with opportunities to gather, hold community events, socialize and connect
- Make park elements more accessible by providing more pathways in the park
- Contribute to a healthy environment by increasing tree canopy and natural areas
- Improve drainage and water quality
- Contribute to local food production

COLLINGWOOD PARK RENEWAL

CONCEPT 2

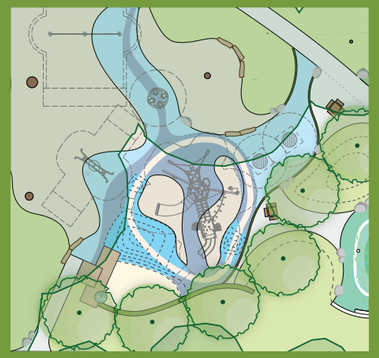

Perspective from the proposed playground area and pedestrian trail.

LEGEND

1. **PLAYGROUND**
   Includes adventure play area with logs and boulders, active play equipments and colorful rubber mounds. Some of the play features are sandbox, playhouse, wood deck and water table, rubber mounds and a mini bike track for young children.
2. **PROPOSED WATER FEATURE**
   Includes boulders with colourful spray features and natural elements (subject to permit approval).
3. **PLAZA AND STAGE**
   Provides a programmable space for activities such as music, outdoor learning, cultural gatherings, movie night and theatre.
4. **MULTI SPORTS COURT**
   Includes a colourful sports court with site furnishings, a skateboard feature, spectator seating and drinking fountain.
5. **IMPROVED BASE BALL DIAMOND**
   Improvements to backstop, drainage and access.
6. **RAIN GARDEN**
   Supporting biodiversity, habitat and improved site drainage, using some of the water from water feature.
7. **NEW SHADE TREES**
8. **PEDESTRIAN TRAILS AND STEPS**
9. **OPEN LAWN AND LAWN MOUNDS**
10. **IMPROVED WASHROOM FACILITIES AND LITTER RECEPTACLES**
11. **PICNIC TABLES AND SEATING**
12. **PARK ENTRY PLAZA**
    Includes entry trellis, community board and bike racks.

PLAYGROUND

During the first round of engagement, the community ranked the playground as one of the top priorities for improvements. The new design proposes a variety of play equipment such as slides, a climbing structure, trampoline, swings, sand play area, playhouse, balance logs, spring toys, spinners and a seesaw. The design also includes picnic tables, new seating and a mix of undulating rubber paths and wood chip surface for improved accessibility.

Spinners

WATER FEATURE

A proposed water feature could replace the existing wading pool. Options being explored are ground sprays located among natural elements such as boulders and a colourful surface. The run-off from the small water feature would be reused in an adjacent raingarden and activated by children in the summer months.

The proposal to introduce this water feature is subject to permit approval.

Perspective from the proposed water feature and park entry.

FURNISHING

The new concept includes a variety of furnishing elements such as picnic tables, shade trees, natural elements (boulders/logs), seating, planting, drinking fountain and bike racks.

STAGE AND PLAZA

The stage and plaza include seating and a platform for flexible use such as community events (music, performance), family gatherings (birthday parties, celebrations), flexible daily use activities (picnics, Tai Chi, yoga).

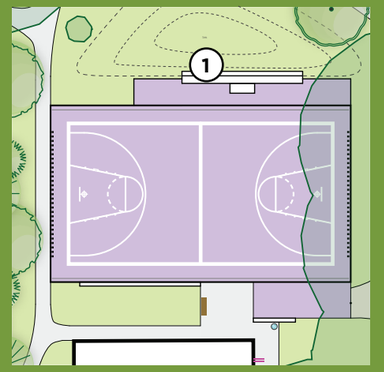

Perspective from the proposed stage and plaza.

SPORTS COURT

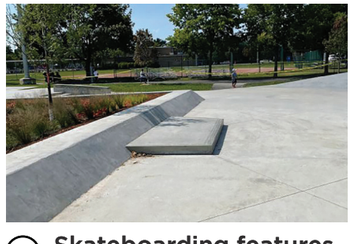

The multi-sport sports court can support a variety of activities including basketball, street hockey, Tai Chi and skateboarding. A colourful enlarged court surface is proposed with bench seating on the edge. The bench, along with sections of fence behind the hoops, will help contain balls in the court.
