

# C-5, C-5A and C-6

## Districts Schedule

### 1 INTENT AND OVERVIEW

#### 1.1 Intent

The intent of this schedule is to provide for retail and services uses and forms of development compatible with the primarily residential character of the West End and to provide for dwelling units in C-5A and C-6 designed to be compatible with commercial uses. This schedule encourages the scale and function of the external design of buildings to be pedestrian-oriented. Acoustic regulations in [Section 10](#) of this by-law apply to dwelling units.

The C-5 district provides opportunities for commercial uses throughout the district and opportunities for nightlife in the Davie Village. The C-5A district differs from the C-5 district by providing density bonuses for social housing and secured market rental housing. The C-6 district provides a transition between the Downtown and the West End and differs from the C-5 and C-5A districts by permitting a greater density and scale.

#### 1.2 Overview

The table below provides an overview of outright and conditional approval uses in the C-5, C-5A and C-6 districts, categorized by the minimum site area required, where applicable. Applicable density, form and placement regulations in section [3](#) of this schedule are cross-referenced in the third column.

### 2 USE REGULATIONS

#### 2.1 Outright and Conditional Approval Uses

All outright and conditional approval uses are subject to all other provisions of this by-law, including [Section 2](#), [Section 10](#) and [Section 11](#), and compliance with the regulations of this schedule including section [2.2](#).

The uses identified in the table below as outright approval uses are permitted in these districts and will be issued a permit.

The uses identified in the table below as conditional approval uses may be approved in these districts by the Director of Planning or Development Permit Board, with or without conditions, if the Director of Planning or Development Permit Board considers:

- (a) the intent of this schedule and all applicable Council policies and guidelines; and
- (b) the submission of any advisory group, property owner or tenant.

Uses are listed under their general land use category. Applicable use-specific regulations in section 2.2 of this schedule are cross-referenced in the third column. Cross-references to applicable use-specific regulations are provided for information purposes only and do not form part of this by-law.

### 3 DENSITY, FORM AND PLACEMENT REGULATIONS

This section contains density, form and placement regulations organized by use.

#### 3.1 All Uses

All uses in these districts are subject to the following regulations.

##### 3.1.1 Density and Floor Area

- 3.1.1.1 The maximum floor space ratio is 2.20 in the C-5 and C-5A districts and 2.60 in the C-6 district, except that:
- (a) for a hotel existing on or before February 4, 2014, the floor space ratio must not exceed the greater of the floor space ratio existing on September 30, 1986 or the maximum floor space ratio permitted in this section [3.1.1.1](#); and
  - (b) if there is no heritage density available for transfer, the Director of Planning or Development Permit Board may increase the permitted floor area by 1 m<sup>2</sup> for each amenity share provided to the City at no cost to the City, to a maximum of 10% above the maximum permitted floor space ratio, if the Director of Planning or Development Permit Board considers the intent of this schedule, all applicable Council policies and guidelines, and the submission of any advisory group, property owner or tenant.
- 3.1.1.2 The Director of Planning may increase the permitted floor area for hotel existing on September 30, 1986, by a maximum of 5% if, in the opinion of the Director of Planning, the increase in floor area will result in enhanced pedestrian amenities.
- 3.1.1.3 The Development Permit Board may increase the permitted floor space ratio by a maximum of 10% where the increase results from a transfer of heritage density, except that this increase must not apply to a hotel where the floor area has already been increased pursuant to section [3.1.1.2](#) above or a development where there has been an increase in floor space ratio pursuant to section [3.1.1.1\(b\)](#) above.
- 3.1.1.4 The Director of Planning or Development Permit Board may increase the maximum floor space ratio in the C-5A and C-6 districts for mixed-use residential building, if:
- (a) the floor space ratio does not exceed:
    - (i) 7.00 in the C-5A district, and
    - (ii) 8.75 in the C-6 district, except that the floor space ratio must be at least 1.20 for non-dwelling uses;
  - (b) either a minimum of 20% of the floor area included in the calculation of floor space ratio is developed as social housing, or all dwelling units are secured market rental housing, except that this requirement does not apply to any portion of floor area that is increased pursuant to sections [3.1.1.1\(b\)](#) or [3.1.1.3](#) above; and
  - (c) the Director of Planning or the Development Permit Board considers the intent of this schedule and all applicable Council policies and guidelines.

**3.1.2 Building Form and Placement**

Regulations	C-5 and C-5A	C-6
3.1.2.1 Maximum unit frontage located on a floor having an elevation within 2.0 m of street grade, except for community centre, gasoline station – full serve, gasoline station – split island, parking area, and school – elementary or secondary	7.7 m	no maximum

  - (b) the site has a frontage exceeding 45.8 m as of May 18, 1993;
  - (c) no more than a total of 50% of the frontage of the site is occupied by grocery or drug store, or grocery store with liquor store and their departments, except that this total amount must be interspersed with other retail or service uses; and

### **Building Height**

3.1.2.8 Despite the maximum building height in section 3.1.2.2 above, no portion of the building may extend above the envelope formed by a vertical line measuring 7.4 m in height at the north, northeast or northwest property line at a street or lane and a vertical line measuring 11.0 m at the south, southeast or southwest property line at a street or lane and a plane formed by an angle of 120 degrees measured from each of the vertical lines.

- (b) the Director of Planning is satisfied that shopping continuity and pedestrian amenity along any abutting sidewalk will be achieved.

**Rear Yard and Rear Setback**

3.1.2.14 Despite the minimum rear yard depth and rear setback in section 3.1.2.5 above, where the rear of the site abuts a lane, the required minimum rear yard depth will be decreased by the distance between the rear property line and the ultimate centre line of the lane.

3.1.2.15 The Director of Planning may decrease the rear yard depth and rear setback for dwelling use, provided the Director of Planning is satisfied that residential liveability is achieved for the development site and neighbouring existing or potential dwelling uses.
