except that the Director of Planning may vary the maximum height, floor area and location regulations, provided that the varied height does not exceed 10.7 m and the varied floor area does not exceed 33.3% of the gross floor area of the principal use.

3 DENSITY, FORM AND PLACEMENT REGULATIONS

This section contains density, form and placement regulations organized by use.

3.1 All Uses

All uses in this district are subject to the following regulations.

3.1.1 Density and Floor Area

3.1.1.1 The maximum floor space ratio is 0.60, except that:

- (a) for a building existing prior to December 1, 1973 and approved for dwelling use only, the floor area may be increased by 20% of the existing floor area, provided that in no case may the maximum floor space ratio exceed 1.00 and the increase in floor area is for dwelling use only; and
- (b) the Director of Planning or Development Permit Board may increase the permitted floor space ratio to a maximum of 1.50, if the Director of Planning or Development Permit Board considers the intent of this schedule, all applicable Council policies and guidelines, the nature and size of the site, adequacy of open space, overall design and the provision of amenities which would result in community benefits.

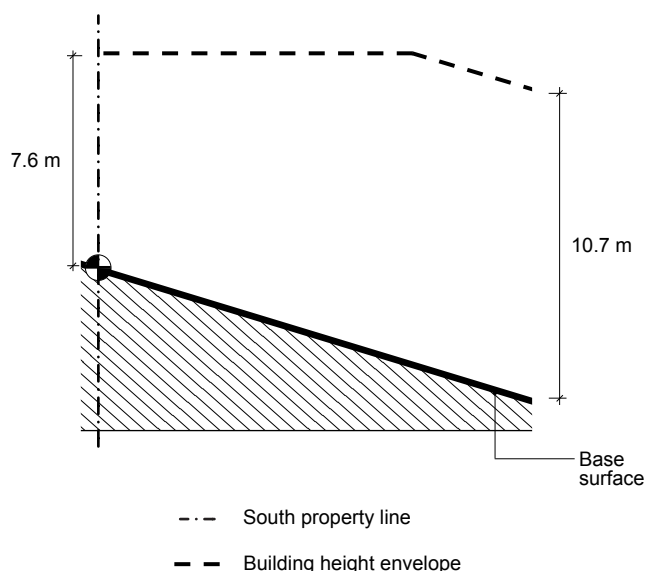

3.1.2 Building Form and Placement

Regulations	FM-1
3.1.2.1 Maximum building height	10.7 m

Building Height

- 3.1.2.2 Building height will be calculated from the building grades as established by the City Engineer and measured at the ultimate property line at the lane.
- 3.1.2.3 Despite the maximum building height in section 3.1.2.1 above, in the case of a site fronting on a street running east and west, no portion of the building may extend above an envelope formed by a vertical line measuring 7.6 m in height at the south property line and a line extended horizontally from the vertical line to intersect a line representing the maximum height.

Diagram: Maximum building height for all the uses

- 3.1.2.4 Subject to approval of Council, the Development Permit Board may increase the maximum permitted building height in section [3.1.2.1](#) above, if the Development Permit Board considers:

 - (b) the amount of open space and the impact of the overall design on the general amenity of the area;
 - (c) the peculiarities of the site with respect to traffic, surrounding developments, topography, the potential for development both within the FM-1 district and other zoning districts that are adjacent to the site, and other factors not characteristic of the FM-1 district; and
