

RM-10 and RM-10N

Districts Schedule

1 INTENT AND OVERVIEW

1.1 Intent

The intent of this schedule is to encourage development of apartments up to 6 storeys. Townhouses are encouraged at the rear of sites where lot depth is sufficient. Triplexes may be developed on sites that are not large enough for an apartment. Emphasis is on dwelling units that are varied in size, composition and tenure, including those suitable for families with children. Common and private outdoor spaces are required for apartments and townhouses. These districts seek to foster compact, multiple dwelling neighbourhoods, with additional allowances to enable small-scale, neighbourhood-serving retail and services located on the ground floor of buildings. In the RM-10N district, acoustic regulations in [Section 10](#) of this by-law apply to dwelling units close to arterial streets.

Without limitation, applicable Council policies and guidelines for consideration include the [RM-10 and RM-10N Guidelines](#).

1.2 Overview

The table below provides an overview of the outright and conditional approval uses in the RM-10 and RM-10N districts, categorized by the minimum site area required, where applicable.
